#### Retroactive Nomination to PDA

CenterPoint Energy Services, Inc. ("CES"), MRT's affiliate with marketing function employees, is requesting a retroactive Predetermined Allocation change as operator agent for Liberty Utilities ("Liberty") meter 805502. MRT's tariff, Section 7.13, states that the party providing point confirmations should submit a Predetermined Allocation ("PDA") prior to gas flow. CES submitted the PDA timely, but inadvertently failed to add Spire Marketing ("Spire") contract 6163 to the PDA effective April 1, 2020. As operator agent, CES is requesting that MRT allow the allocations to be updated April 1-13, 2020 to add Spire contract 6163 to the PDA and update the ranks to Liberty contract 5127 and CES contract 6119. Pursuant to Section 29.1 GT&C, MRT will waive the prospective nomination requirement of Section 8.1 (f), G T & C. No other customers, nor MRT, are adversely affected by this waiver.
