DETAILED LANGUAGE

Retroactive Nomination

CenterPoint Energy Services, Inc. ("CES"), MRT's affiliate with marketing function employees, made a nomination error on April 28, 2019. CES adjusted supply nominations on pooling contract 560, but failed to correctly update the delivery nomination from the pool to contract 4098, which left the pool out of balance. CES is requesting a retro nomination to correct the nomination to contract 4098, which will balance the pool for the day. Pursuant to Section 29.1 GT&C, MRT will waive the prospective nomination requirement of Section 8.1 (f), G T & C. No other customers, nor MRT, are adversely affected by this waiver.
