Security for Customers Failing to Satisfy Credit Criteria

MRT's tariff provides that if a Customer fails to satisfy MRT's credit criteria, such Customer may still obtain service if it provides MRT with (A) a continuing deposit equal to a minimum of six (6) months service; (B) a standby irrevocable letter of credit drawn upon a bank acceptable to MRT; or (C) a guarantee by a person or other entity which does satisfy MRT's credit appraisal. When a Customer fails to satisfy the credit criteria, it is MRT's practice to require security in an amount sufficient to cover three (3) months service (which shall include, if applicable, reservation or estimated usage charges and cash-out exposure amounts). The form of security, e.g., letter of credit, parental guaranty or deposit may vary depending on the circumstance. Accordingly, pursuant to its authority under Section 29.1, GT&C, of its tariff, MRT is hereby waiving, for all Customers, the requirement to obtain a minimum of six (6) months worth of security, in the manner described above.

Prospective Nominations

From time to time, errors relating to Customers' transportation transactions, including, but not limited to, in the areas of contracts, nominations, confirmations and scheduling, may occur due to MRT's computer or administrative errors. In such cases, when brought to MRT's attention, instead of requiring individual, customer-specific waiver requests and postings, Customers are hereby notified that MRT will waive the requirement that nominations must be prospective only, and allow or otherwise effectuate nominations on a retroactive basis, to the extent necessary to correct errors caused by MRT, and to the extent that no other Customers' service is adversely affected. Additionally, MRT will waive the prospective nomination requirement to the extent necessary to correct errors relating to Customers' transportation transactions that occur due to Customers' errors, to the extent such Customer is the only party affected and MRT is not harmed.
