

Enable Mississippi River Transmission, LLC
Operational Flow Order Log

Pursuant to MRT's tariff General Terms and Conditions, Sheet No.139, Section 9.7(h), MRT posts the following information regarding the OFOs it issues:

<u>Issued Date/Time</u>	<u>Effective Date/Time</u>	<u>Expiration Date/Time</u>	<u>Customer Action Required</u>	<u>Factors For Issuance</u>	<u>Factors for Lifting OFO</u>	<u>Notice Identifier</u>
1/31/2019 9:07:00 PM	1/31/2019 9:07:00 PM	2/1/2019 9:00:00 AM	Physical Market area deliveries must equal physical receipt quantities (adjusted for fuel & LUFG) for January 31, 2019.	The delivery pressures on MRT's System were low and expected to deteriorate to levels that would threaten system integrity without appropriate shipper actions to comply with MRT's SPW and OFO.	Pressures on MRT's system returned to acceptable levels after total deliveries reduced significantly in MRT's Market Zone.	3032
